## Tam Baling system

Plastic bottle bale

Displayed in booth

Small type bale of used paper

Cardboard case bale

Used paper bale

Our baling machine is used for compressing plastics (such as bottles and bags), non-ferrous metal or used paper (cardboard box, newspaper or magazine) with high density for recycling purpose that would contribute the reduction of transport cost.

## Packaging care for the earth

We demonstrate the latest machine with environmental initiatives.

### TAM Circular Economy

Select eco-friendly resource

Ecological design

Recycling

Production of package

Packaging for logistics

New

## TWFX5VR

V.F.F.S Machine with outer valvi device

The latest model of outer valve VFFS machine for coffee packaging. The amount of film usage has been reduced and the footprint has been decreased by adopting a new mechanism.

Next Generation

## CRP001

Collaboration robot palletizer

Space saving collaboration robot palletizer with weight sensor. As the weighing is executed at the same time of palletizing, it doesn't need to install case weight checker that realise spacesaving system. We offer the optimum solution on your request.

## ARZZD1

Overwrapping machine for Gifts and Confectioneries

The best selling series overwrapper more than 3400 machines delivery.  
The 'natural glue' in trial will be used in demonstration.

## TWFX3IL

V.F.F.S Machine

While the seal strength is maintained, the amount of film usage has been reduced by shortening the horizontal seal width. This is the first demonstration of challenging for environmental consideration through packaging.
